

Degerfors Steel Rolling Mill

Product: Hydrotech Discfilter
Model: 2 x HSF2106-1A
Client: Avesta Polarit, Outokumpu
Max Flow: 675 l/sec
Completion: 2006

Project

The contract for Degerfors Steel Rolling Mill was for the supply and installation of a new water intake plant as part of an upgrade by Avesta Polarit, an Outokumpu Group Company, to their Steel Rolling Mill at Degerfors Sweden. Two 2,1 m diameter Hydrotech Discfilters fitted with 50 µm filter elements were supplied and installed to treat 675 l/sec of intake water from the local river.

Hydrotech were responsible for the installation and commissioning with others responsible for the civil design and construction.
